

arlexitalia

Arlexitalia has been representing the innovation in the bathroom sector for more than 20 years. A distinctive and very creative style and an excellent quality, make our products unique and recognizable in the market.

Each product has its own story, made of ideas, research and development. Special products for the house furniture, where the bathroom perfectly matches with the rest of the home

The passion for the bathroom – functional and beautiful -, the most suitable solution for each project, gets carefully studied in the Company.

Arlexitalia is an environment where each product is tailored in a sartorial way, developed from an idea and a drawing. Each detail is handcrafted and completely realized inside the Company. That's why we can customize our collections, letting our Customer have an unique product.

arlexitalia

The factory is close to Venice, where art and craftsmanship are part ancient history of our artisanal tradition, exactly as in Arlexitalia.
Today its headquarter is about 3000 square meters .

arlexitalia

The company is developing constantly and has the cooperation of worldwide designers with the capacity to create innovation and emotions on the market.

Well-advanced paint booth, wood numerical control machinery, assembly and production lines are applied, in order to give the highest quality control of the product. This is typical of the Venetian tradition.

Each product is an unique part checked by quality department . Each product comes to the final customer together with declaration of conformity of the goods, directions for use and maintenance.

In order to guarantee the quality of the product, each piece has been photographed and stored on our digital archive.

arlexitalia

The Story

Arlexitalia was created in 1993.

Casually, Mariluccia Baccin became aware of a project on bathroom furniture, which was brand new and nonexistent in the furniture market. It's something unique and a totally different concept, an idea she thinks may completely change what's been defined a "small private corner" in a wonderful relax room, made for everybody to take care of himself. Her dream has become reality with the creation of Arlex, a new, young and dynamic Company.

In 1993 furniture is usually a small monobloc, white or in natural wood. But Mariluccia decides it's time to change, thinking about a colored bathroom. That's how a new era begins, the color era. For the first time, at "Cersaie" in Bologna, the colored furniture is presented, and it's a sudden success. Colors as "India red, turquoise, English green" invade the market and create a new trend.

The passion for colors and water is put inside Arlexitalia collections, always realizing new original products with high quality and high technology.

The name Arlex comes from Harlequin, colored venetian mask who quickly changes expression, just as our products.

As time goes by, the name's changed in Arlexitalia to make the brand more international and to remind that everything's made in Italy.

We've patented almost all our collections, as, for instance MOON or the recent OUD and FLOWER finishing, created through an important research all made inside our Company and totally handmade. Each piece is unique and gives an extraordinary result.

This is real luxury, something unique.
