

Arlexitalia at Salone Bagno 2018

By **Melanie Gardener** - May 1, 2018

Introducing three new products showcased by Arlexitalia at Salone Bagno 2018. It is presented in a special, extra luxury composition that is completely covered by 2cm of Carrara marble. Mood is a compact bathroom setting, while Yummi Smart is a young audience looking for a light design without forgetting functionality.

Kube Marble – Design Massimo Casali

This alternative version of Kube reflects the essence of real luxury: modular units with soft-close drawers and pull-out system, structure with internal 45° beveled edge and exclusive integrated handle for an easy opening. Internal drawers can be also connected to the main one. Each unit holds either an integrated washbasin top (again with 45° profile), an under-counter washbasin, or even a free-standing one.

This special, extra luxury composition is completely covered by 2cm thick sheets of Carrara marble, which underwent a special manufacturing process so as to have the same edge, including the integrated top. The marble natural pattern corresponds on all sides and top surface, giving the whole arrangement a sense of reasoned and pleasant beauty. Modular units start from 70cm length.

Lay – Design Marco Zito

A stainless steel frame, similar to a bookcase, is the way to a customised bathroom. Its shape through a Layout composition (the abbreviation of the name comes from rise to different combinations, from the "naked" one, only made up of washbasin to the fully equipped one with closed containers and doors. The thin, matte black square edge drawn, makes the entire system look light and elegant thanks to many colour combinations of the equipped surfaces. Mirrors can be lit up and have different

Yumi Smart – Design Marco Zito

This new Arlex composition, is easily customised thanks to its structure that offer choose among a wide range of colours and materials creating contrast effects obt combination between matte and shiny lacquers. The free-standing washbasin bel Agorà collection and it is available in all colours of the Arlex set. Yumi Smart is ec wireless and recharge system that gives the opportunity to recharge your mobile connecting any cable, but only placing it on the top surface. Even the back lit rou against a storage shelf, is hi-tech equipped. In particular, it is provided with an integrated Bluetooth system that, through the cc smart phone, permits to listen to your favorite music while using the space.
